Scrub Sinks

SKYTRON
Reliability • Versatility • Cost Savings
Quality stainless steel scrub sinks for every clinical need

Skytron’s Stainless Steel Scrub Sinks provide quality, convenience and flexibility for every clinical need. Scrub Sinks are available with knee-kick and/or optional infrared module for “hands-free” operation. In addition, the optional Eye Wash (EW) feature provides a central, visible location to all staff, and saves valuable floor and wall space.

- **Single Bay with optional Infrared Module**
- **Optional Eye Wash (-EW) safety feature.**
- **Double Bay with optional Infrared Modules and Eye Wash**
- **Optional Infrared Module (-IRM) conserves water usage.**
- **Triple Bay with optional Infrared Modules**
- **The Standard Knee Kick (-MK) panel is 16” wide and 8-1/2” high and is centered to the faucet for left or right knee operation.**

**Durable Stainless Construction**

**Fully Customizable Menu**

**Knee Kick Inclusion**
A highly visible, deck mounted mixing valve provides optimal temperature control. Deep sloped sink design minimizes backsplash, while plexiglass splash dividers prevent cross-bay contamination. High quality gooseneck faucet(s) create wide, "rosette-style" spray or steady stream dependent upon user preference. Large 1-1/2" drain(s) promote fast and efficient water drainage for every scrub cycle.

**Designed to provide the highest degree of durability and ease of use**

**Differentiating Features**
- Solid 300 series Stainless Steel base
- Adjustable Stream/Rosette Aerator – meets individual preferences for comfort and saturation of hands with water during the scrub process
- Drain in every bay reduces the potential for unwanted bacteria development (no trough design)
- One hot/cold hook-up with optional multiple thermostatic mixing valves (applicable to dual or triple bay sinks)
- Knee kick inclusion even with IR feature (dependability in event of losing power)
- Original provider of eye wash feature in scrub sinks using tepid water

**Optional Equipment**
- Eye Wash Feature
- Infrared Module(s)
- Wall Support System
- Back Shelf
- Laminar Flow Nozzles
- Additional deck mounted mixing valve
About Skytron: Skytron is a healthcare efficiency company specializing in capital equipment that drives performance in today's healthcare facilities. Our solutions enhance the utilization of people, facilities and capital because they are designed with the user in mind and have a low, long-term cost of ownership. We offer full-room solutions in Clinical, Infection Prevention and Clinical Business Intelligence products. To learn more, visit our website at www.skytron.com
